Points reference telegram not previously mentioned (INSTELS 315, 316) brought attention Fragoso today. Fragoso stated there no official GUP reaction as yet. He posted there would be at end of day their representative has asked for instructions. Also indicated no reaction from Doctor Salazar who had English text President's speech last night with Portuguese summary.

Fragoso was unusually reserved although he said speaking officially that US could certainly expect little from UN.

Points reference telegram not previously mentioned last night (EMBTLS 315, 316) brought attention Fragoso today (1230 PM). Fragoso stated there no official GOP reaction as yet but expected there would be at end of day their representative MAC has asked for instructions. Also indicated no reaction so far from Doctor Salazar who had English text President's message last night with Portuguese summary.

Fragoso was unusually reserved although he said speaking unofficially that US could certainly expect little from OAS or UN.
